**FOR SALE: TIMBER FOR  
LESS THAN HALF PRICE.**

Thirteen thousand five hundred  
acres in one tract, railway alongside of  
tract, virgin long leaf yellow pine, never  
been turpentine or a stick cut out.  
You can get land and timber for \$10  
per acre, half cash, balance three years  
with interest. This land will bring  
you \$15 to \$20 per acre after timber is  
cut off. 42,000 acres well timbered on  
railroad, easy to log, fine land. You  
can get land and timber for \$11.00 per  
acre, part cash, balance to be agreed  
on with interest. I have smaller tracts  
of interested, write me. I can trade some  
good land for clear income property.  
Let me know what you want and when  
you have for trade. All the timber will  
run over 3000 feet per acre. COME  
TO ORLANDO, FLORIDA. 147 miles  
south of Jacksonville, Florida. See  
town in the state. Then take the auto  
and west on paved road for my place.  
Just five miles. I can help you.  
Yours truly,  
**FRED B. LYNCH**  
Orlando, Florida

**ANOTHER SOLDIER LETTER.**

August 11, 18.

Big Sandy News,  
Louisa, Ky.

Dear People:

It has been quite a pleasant day to-  
day, owing to a few showers that  
lowered the temperature from 105 to 90.  
The tenth was the hottest day ever,  
and one could hardly stand the heat  
at all. All schools and firing lines were  
adjourned and "Liberty" was blown  
and enlisted men's liberty was given  
only because of real danger of exhaus-  
tion. When the blast of the bugle  
sounded, and echoed and re-echoed  
through the grounds of the range and  
barracks, a number of abouts burst  
out from the lips of sailors, soldiers  
and marines. Pretty soon enlisted  
men of all ranks, together with a  
number of officers began to swarm  
the shores of old Virginia, and at 1:30  
the swimming was in full swing. About  
one thousand in all, covering less than  
half a mile of the beach. Gradually  
the temperature began to fall, and at  
seven the swimming was simply fine.  
There was not any air to add to the  
height and fierceness of the waves.  
The instructors and machines of arms  
college were there and of course that  
gave the students liberty.

Later and after the shadows had be-  
gun to fall a swell looking bird put  
in his appearance at a distance toward  
the east coast. It grew larger and  
larger until at last it developed into a  
plane. It was the coast guard in his  
own plane, and he was descending and  
it looked like he was landing in our  
midst, but he did not, he only came  
within 25 feet of the briny, but near  
enough that we could see the pilot and  
the aviator, they were waving us and  
we returned their welcome with many  
bursts of yells and cheering until they  
few far beyond the yelling crowd of  
shamuses.

My sisters send me the News for  
which I feel grateful to you. I read  
every word. I notice some very in-  
teresting letters from Kentucky fami-  
lies, and I think they are fine. I  
would like to come home after I stand  
my examination to shake hands with  
all blue-blooded Kentuckians. I think  
Bill will get his final kick by Novem-  
ber. If so I am going to drop in to  
the farm and I'm not going to prom-  
ise Uncle I will not play hockey from  
home any more.

I am awfully proud that I am serv-  
ing my country when I am really need-  
ed.

With love to the home folks and peo-  
ple of Sandy Valley.

**JOHN M. BENTLEY, JR.**

Norfolk, Virginia.

ORR.

Death made its solemn call on our  
Creek Tuesday and took Jay, the 19-  
year-old son of Mr. and Mrs. Martin  
V. Hensley, away. He died after  
about three months illness from ty-  
phoid fever. He is survived by his

father, one brother and one sister, his  
mother having died four years ago.  
He leaves a host of friends and rela-  
tives to share the mourning of his ab-  
sence. Jay had well educated him-  
self and his departure has cast a gloom  
of sorrow over our school which he  
always attended. It was thought he  
would recover but the Lord had called  
him and he rested and said he was  
going to his home in Heaven. His  
corpse perished here on earth to bloom  
again in Heaven.

The crops of our neighborhood are  
looking fine.

The farmers are preparing to sow  
the "over the top" wheat crop.

Ivory Griffith is very low with tu-  
berculosis.

There will be church at Providence  
Sunday by Rev. Cecil Daniels.

School is progressing nicely here  
with John W. Rogers as teacher.

Mr. Lafayette and Morton Conway  
are visiting home folks from Ashland.

Mr. Elmer Johnson, who was re-  
cently employed at Ashland, is now at  
home.

Mr. Harry Shepard, of Plainville, O.,  
was calling on Miss Beale Yates on  
Sunday.

Several from our creek attended  
the Carter County Fair. All report  
that it was grand.

**TWICE PROVEN**

If you suffer backache, sleepless  
nights, tired, dull days and distressing  
urinary disorders, don't experiment.  
Read this twice-told testimony. It's  
Louisa evidence—doubly proven.

Mrs. Frank Pigg, Water street, says:  
"I suffered for a long time with many  
distressing symptoms of kidney com-  
plaint. The most annoying ailment  
was a severe pain in my back and a  
dull, bearing down feeling through my  
loins, which at times was almost in-  
tolerable. I was weak and languid, con-  
stantly tired and had no ambition. My  
back was in such a bad condition, I  
couldn't stoop over without enduring  
severe pain and it was a terrible effort  
for me to rise. I was restless at night  
and couldn't sleep. Mornings I was  
just as tired as when I went to bed. I  
was nervous, too, and suffered from se-  
vere dizzy spells. The action of my  
kidneys was irregular and caused me  
much annoyance. I felt like giving up,  
as nothing seemed to help me. I finally  
took Doan's Kidney Pills and the  
pains in my back and loins left. The  
action of my kidneys became normal  
and the other distressing symptoms  
were removed."

Mrs. Pigg gave the above statement  
on March 19, 1918 and on December 4,  
1918, she said: "The cure Doan's  
Kidney Pills made for me is still last-  
ing and I now enjoy the best of health."

fice.

**Wheat Will Win the War.****MEETINGS HELD AT SCHOOL HOUSES.**

The Government realizes that WHEAT WILL WIN THE WAR and has  
asked the farmers to answer this call by sowing every acre to wheat that is  
possible to sow. I want to meet and get the name of every patriotic farmer  
who will sow wheat, at meetings to be held on the following dates:

HEWLETT	August 16, 8 p. m.
YATESVILLE	August 20, 8 p. m.
FALLSBURG	August 22, 8 p. m.
BUCHANAN	August 26, 8 p. m.
ZELDA	August 27, 8 p. m.
POTTER	August 28, 1:00 p. m.

Farmer's Salute: I will this fall sow all the wheat I can, for wheat will  
win the war. Come to the meetings. Lawrence county's quota is 4,000 acres.  
G. C. BAKER, County Agent.

**Uncle Sam's Big Problem**

Great warships are sliding off the ways; navy  
yards and arsenals are working night and day;  
great mobilization camps have sprung up as if  
by magic; everywhere the vast resources of the  
nation are being gathered together for war.

All over the Bell telephone system, thousands  
of employees are busily engaged in all branches  
of telephone activity, to keep pace with the extra-  
ordinary telephone needs of the nation. And with  
the increased government requirements, there will  
be greater demands for commercial service.

Not only is there a great scarcity of materials,  
but there is a similar scarcity of labor, and al-  
ready many of our technically trained employes—  
men who cannot be replaced—have joined the  
colors.

As time goes on it will become continually  
harder to meet the demands for service from gov-  
ernmental and private sources—and our patrons  
are asked to bear this extraordinary condition in  
mind and to help in the maintenance of an ef-  
fective service by eliminating all wasteful use of  
telephone lines and equipment.

Our loyal organization is working contin-  
uously to meet the increased demands and your  
patient co-operation will prove helpful and in-  
spiring.

**SOUTHERN BELL TELEPHONE  
AND TELEGRAPH COMPANY  
OF KENTUCKY, Inc.**

**DIRECTIONS FOR  
GROWING WHEAT**

AS MUCH WHEAT AS THE FAR-  
MERS OF THE UNITED STATES  
CAN RAISE IS NEEDED.

The varieties of the wheat generally  
grown in Kentucky are the best for  
this state. These are Fultz, a smooth  
white chaff variety, Carraffa, prolific,  
having a smooth head with red chaff;  
Falcaster, a bearded variety, Mediter-  
ranean, or Four-rowed Fultz, Poole and  
Harvest King.

If necessary to buy seed one of these  
varieties should be chosen, and if possi-  
ble the seed should be bought in the  
immediate locality. Home grown seed  
is just as good as northern seed if  
reasonably clean and pure. No farmer  
can afford to buy enough high priced  
seed from a distance to plant his entire  
crop, and pay freight charges in ad-  
dition. Just to have absolutely pure  
seed. A moderate admixture of other  
varieties will not decrease the yield.  
The important thing is to have seed  
free from rye, cheat, and especially  
cockle and onions.

Seed wheat should be cleaned in or-  
der to remove light shrunken grains  
dirt and other impurities. There is no  
advantage in screening out small grain  
if they are plump.

Seed Treatment.

Stinking smut has caused widespread  
loss in Kentucky this year. It is prac-  
tically impossible to buy seed that is  
entirely free from it. Consequently  
not a bushel of what should be plant-  
ed this fall without first treating it  
for smut. The formaldehyde treat-  
ment is easily given, is very effective,  
and it has largely supplanted the lime  
stone treatment. It is applied as fol-  
lows: Spread the wheat out on a floor  
or clean canvas and sprinkle until  
thoroughly wet with a solution made  
by adding one pound of formaldehyde  
to a barrel (50 gallons) of water. Then  
shovel into a heap and cover with can-  
vas or sacks for a few hours. Spread  
and dry sufficiently to sow.

Fertilizing Wheat.

No fertilizer should be used in the  
Central Blue Grass section this fall.  
In the fertilizer tests conducted by the  
Experiment Station, a profitable in-  
crease has never been obtained on  
wheat in the Central Blue Grass sec-  
tion, by the use of any kind of com-  
mercial fertilizer at sowing time.

Everywhere outside of the Blue Grass  
section a fertilizer which supplies a  
phosphorus only should be used. A  
farmer can afford to use commercial  
nitrogen and potash at present prices  
even if they give some increase which  
is entirely unlikely. Acid phosphate,  
steamed bone meal, or basic slag sup-  
ply phosphorus. Two hundred pounds  
per acre of one of these should be used  
on every acre of wheat sown in the  
state this fall outside of the Blue Grass  
section.

The experiments of the station on its  
soil fields in various areas of the state  
have shown remarkable increases from  
the use of times on all soils where phos-  
phorus is needed. Ground limestone  
used in connection with phosphorus  
is certain to be profitable provided it  
can be obtained at a reasonable price.

Preparation of the Seed Bed.

Wheat grows best in a firm seed bed.  
Under no circumstances should the  
land be plowed when wheat follows  
corn, tobacco, cow peas, soy beans or  
any cultivated crop. The best prepara-  
tion is a light discing to cover trash  
and loosen up enough soil to cover the  
seed. After discing, a plank drag  
should be used to level the land. If  
it is necessary to disk deeply to cover  
trash, as is sometimes true of corn land  
a roller should be used to compact  
the seed bed.

When land is plowed the plowing  
should be done as early as the removal  
of the preceding crop permits, in order  
that the seed bed may be gotten firm.  
The later the plowing is done, the great-  
er the necessity for thorough work-  
ing, especially rolling. Without any  
exception it pays to prepare a seed bed  
some time before sowing the seed if  
it can possibly be done.

Time of Planting.

Experiments have shown that Octo-  
ber 1 to 10 is the safest time to plant  
wheat in Kentucky, everything con-  
sidered. In southern parts of the state  
it is safer to wait until October 19 to  
29 when there seems much danger of  
Hessian fly attacks. Late sowing is  
the only possible way of controlling  
this pest.

Seeding Wheat.

It pays to sow five to six pecks of  
seed per acre in Kentucky. The station  
has proved this by repeated ex-  
periments. Except under the most fa-  
vorable conditions, as when wheat is  
sown rather early on rich tobacco land  
six pecks per acre pays better than  
five. Beware of seedmen who adver-  
tise varieties of wheat which require  
a seeding of only a peck or two per  
acre. There is absolutely no variety  
of wheat that gives as profitable a  
yield at this rate as five to six pecks  
per acre.

Probably the most satisfactory drill  
is the single disk type that puts the  
drill rows seven or eight inches apart.  
Experiments have shown no advan-  
tage in having the rows closer than  
this. The much advertised four inch  
drills give no better yields than the  
ordinary type, if indeed as good. Wheat  
should never be sown deeper than  
necessary to get the seed in moist  
soil and perfectly covered. Many poor  
stands of wheat are due to covering  
unnecessarily deep. Wheat should be  
drilled carefully so that there will be  
no skips and wide spaces between the  
drill rounds. Poor drilling frequently  
contributes considerably to low yields.

R. J. KIDNEY.

**Remember**

That every added sub-  
scriber helps to make this  
paper better for everybody.

**CHRISTIAN CHURCH.**

Rev. J. H. Hamblough, pastor of the  
Louisa Christian church, preaches here  
morning and evening of the first and  
third Sunday in each month.

**FIRE INSURANCE**

I am prepared to write insurance on  
any insurable property in Louisa and  
on all good DWELLINGS AND BARNES  
IN THE COUNTRY and a limited num-  
ber of stores not too far from Louisa.

I have the agency for the following  
companies:  
**HENRY CLAY CO. OF KY.**  
**NORTH AMERICA OF NEW YORK**  
**WESTCHESTER OF NEW YORK.**

Will appreciate any business you  
may give me.

**AUGUSTUS SNYDER**

**THE LOUISA GARAGE CO.**

Now is prepared to do all kinds of  
repair work on automobiles. Wm. Har-  
rison, who has had 5 years experience in  
one of the largest garages in Pitts-  
burg, Pa., has charge of the repair de-  
partment and will do your work in first  
class manner. Charges reasonable.  
While the weather is bad is a good  
time to have your cars overhauled.

**BLANKS FOR SUGAR BUYERS**

The Big Sandy News office has in  
stock a supply of blanks required for  
merchants and customers to have 100  
for 40c, 200 for 70c, 500 for \$1.00, post  
paid.

**FOR SALE—The old Yates home on  
Lock Ave. For particulars apply to  
this office.**

**NOTICE FROM DOCTOR  
C. S. WALTERS.**

Those who owe me are requested to  
settle with Mrs. Walters or Dr. H. H.  
Sparks by August 15. Being in the  
army I am compelled to have all ac-  
counts cleaned up at once. Many  
have already settled and I have ex-  
pressed my appreciation for their kindness.  
For any accounts not settled by Aug-  
ust 15, other steps will be taken to  
make the collection.

C. S. WALTERS, D. R.

**SANDY VALLEY SEMINARY**

H. G. SOWARDS, Principal  
**PAINTSVILLE, KENTUCKY**

**TERM OPENS MONDAY, SEPTEMBER ELEVENTH 1918.**

**ADVANTAGES—**

Teachers of broad experience and adequate equipment.  
Christian environment. Active religious influences. A  
Christian character is instilled on the Rock of Eternal  
Truth and will stand unshaken amid the shock and storm  
of life's battle. This ought to be the first consideration  
in selecting a school. Here you have Christianity and  
religious influence in positive terms.

**COURSES—**

Academic—Good high school or college preparatory of-  
fered. All the required subjects and a number of elec-  
tives. Standard course admitting to any college.

Normal—Course offered meeting the State requirement.  
Teachers also have best opportunities in preparation  
for examination and what is better a thorough prepara-  
tion for successful teaching.

Commercial—Strong course in bookkeeping, short hand,  
typewriting and correlative subjects. Our graduates  
equipped to fill the best positions. Unusual opportuni-  
ties are now offered through the business course.

Music—Piano and Voice. This department has well  
deserved the praise it receives. We have had far more  
than the average success and the course for this year is  
to be strengthened.

Expression—Kentucky is noted for oratory. It is a tal-  
ent of marvelous power and when properly developed  
and cultivated makes one master of assemblies. We be-  
lieve it is a grave mistake to neglect this talent and are  
offering a splendid course in physical culture and  
expression.

Grades—So many people living in the rural communities  
desire for their children better school advantages and at  
the same time home care. In our elementary depart-  
ment we offer this opportunity. Our teachers are grad-  
uates having had special training for the grade work,  
and in our dormitory the teachers will continue in  
charge. This gives you the advantage of the best  
schooling and also the same careful oversight of the  
home.

**OUR DORMITORY—**

Girl students will be required to board in the dormi-  
tory where they will be under the immediate care of the  
teachers. This is not done to curtail liberties but to  
give to these young ladies that helpful sympathetic over-  
sight that is so essential in the development of a wise  
and stable character.

**INFORMATION—**

We invite your patronage and if you are thinking of  
sending your boy or girl away for the year's schooling,  
we urge you to investigate the opportunities offered by  
SANDY VALLEY SEMINARY. Write to H. G.  
Sowards, Paintsville, Ky., for any further in-  
formation you may desire.
